

Brand Guidelines

Connect. Protect. Empower.

A cross-border alliance connecting national polyamory and ethical non-monogamy collectives — sharing resources, coordinating campaigns, and standing in solidarity so no local group has to work alone.

The Mark

A heart drawn as an unbroken loop, joined by two linked nodes — a bond without a fixed number, and the alliance that connects it.

Heart

Love and relationship, in whatever form it takes.

Infinity

A bond without a fixed number — unbounded connection.

Linked nodes

The alliance itself — distinct communities, joined.

Clear space

Keep at least the height of the "P" in the wordmark clear on every side. Never crowd the mark against text or a page edge.

Minimum size & the compact lock-up

IPA

Compact

Below about 120px tall — or wherever the tagline stops reading — switch to the compact lock-up: the mark and "IPA" only, no tagline. Never below 32px tall on screen (20mm in print) even for the compact version; smaller than that (favicons, chat avatars) still needs a dedicated icon-only mark, not yet produced.

Using the Mark

ON BACKGROUNDS

The square lock-up — mark, "IPA" and tagline centered in a square, wordmark flipped to white — is the dedicated dark-background and avatar/icon version. The mark's colors stay untouched; only the type flips.

DO

- ✓ Use the full lock-up — mark, "IPA" and tagline — whenever there's room.
- ✓ Keep the clear space rule, on every side, at every size.
- ✓ Scale it proportionally, from the source file.
- ✓ Reproduce the gradient from the master file — don't recreate it by eye.

DON'T

- ✗ Recolor, flatten, or apply a single brand color to the gradient without sign-off.
- ✗ Stretch, skew, rotate, or add outlines and drop shadows.
- ✗ Place it on busy photography, patterns, or low-contrast colors.
- ✗ Rebuild the wordmark in a different font.

Color Palette

Sampled from the primary mark — confirm against the source file before production use.

**Poly Pink**

#BD6891

Accent only — icons, highlights, tags. Warmth in small doses.

**Poly Violet**

#8577B3

Bridge tone — mostly lives inside the gradient, rarely a solid fill.

**Poly Blue**

#1689B8

Primary interactive color — links, buttons, highlighted states.

**Indigo**

#352448

Primary text and wordmark color.

NEUTRALS**White**

#FFFFFF — primary background

**Off-white**

#FBFAFD — cards, surfaces

**Line**

#E6E0EE — borders, dividers

**Muted**

#786E88 — captions, secondary text

SIGNATURE GRADIENT

Reserved for the logo mark and rare hero moments — never as a general page or slide background.

Typography

IPA works across Portuguese, English, Norwegian, Swedish and Ukrainian — both faces need full Latin and Cyrillic support, so the same two families can serve every country in the network.

HEADINGS — MONTSERRAT

Aa

International Poly Alliance
International Poly Alliance

Geometric and confident, echoing the rounded terminals in the wordmark. Bold/SemiBold for headings, Medium for subheads and UI labels.

BODY — NOTO SANS

Aa

A cross-border alliance connecting national polyamory and ENM collectives — sharing resources and standing in solidarity.

One family, Latin Extended and Cyrillic together — no swapping typefaces per country. Regular for body copy, Medium for captions and buttons.

TYPE SCALE

H1	Brand Guidelines	36 / 44 · Bold
H2	Using the mark	28 / 36 · SemiBold
H3	On backgrounds	20 / 28 · SemiBold
Body	A cross-border alliance connecting national collectives.	16 / 26 · Regular
Caption	Version 1.0 — September 2026	13 / 18 · Medium

Voice & Tone

IPA speaks for volunteers talking to media, politicians and each other — warm enough to build solidarity, precise enough to be taken seriously.

Warm, not twee

We write like organisers, not a dating app.
No baby-talk, no excess emoji.

Credible under pressure

Every sentence should survive being read aloud to a journalist or a politician.

Solidarity over hierarchy

We say "alliance" and "network" — never "headquarters" or "members below us".

Low-friction, always

We ask for the minimum — 1–2 reps, a quarterly update — and say so plainly, every time.

Local context first

We never assume one country's legal or cultural reality applies to another.

✓ DO

"PolyPortugal, UK Polyamory and six other national collectives are building shared resources so no group has to start from zero."

✗ DON'T

"IPA welcomes YOU to join our super exciting global poly family!! 🌈"

Applications

A first pass at where the identity shows up day to day — refine as real templates get built. Small placements below use the compact lock-up (mark + "IPA", no tagline) from page 02.
